Full-stack web developer with Bachelor's Degree in Telecommunications and passion for making the web a more accessible and intuitive place. A recent recipient of a full-stack web development certification, my knowledge of CSS, JavaScript, JQuery, React, and responsive web design technologies has allowed me to pursue mobile-first design principles and create powerful and easy to use web applications. I always strive to make an experience that is natural for the end user while keeping a code base that can be easily understood and maintained.

I look forward to leveraging my communications background, teamwork skills, and knowledge of development technology to make memorable web experiences.

## TECHNICAL SKILLS

**Languages:** JavaScript ES6+, CSS3, HTML5, SQL, NoSQL

**Applications:** GitHub, MongoDB, MySQL

**Tools:** Express, Node, Handlebars, jQuery, Bootstrap
